

What does an oceanographer do?

Measure the ocean...

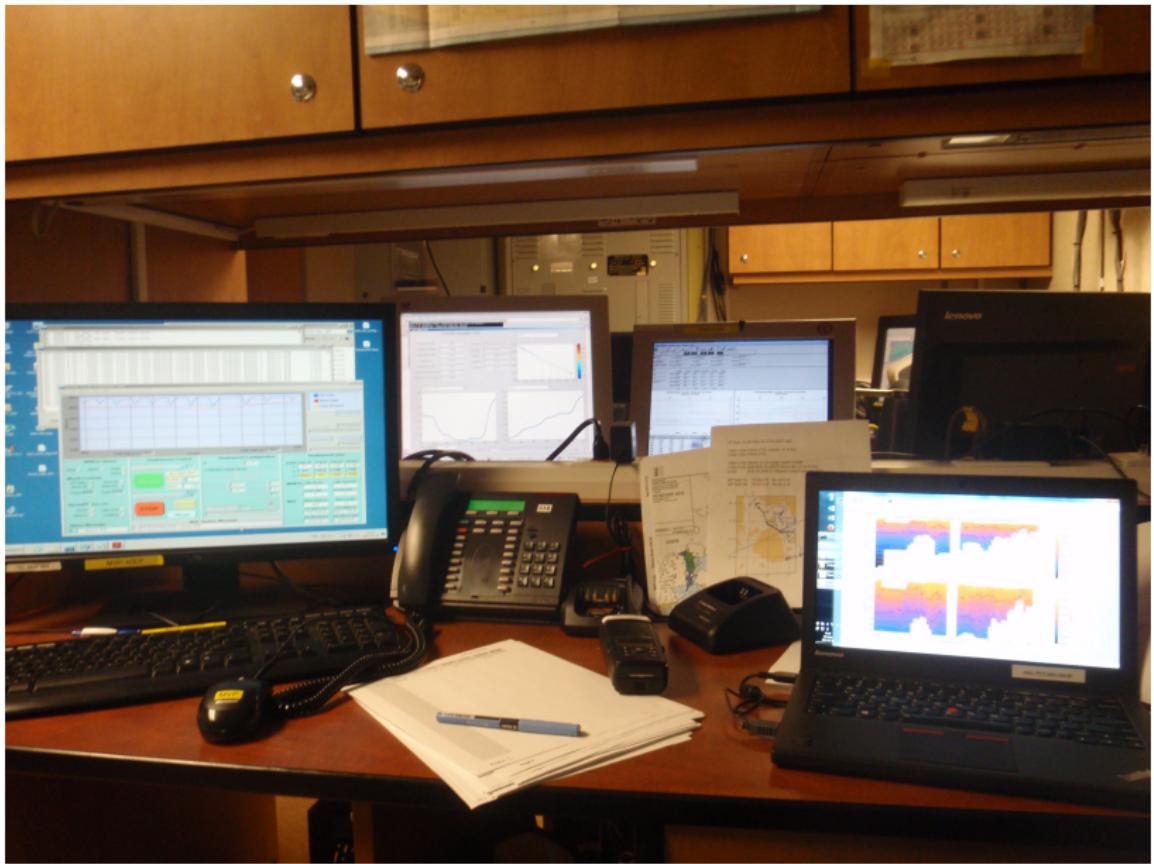

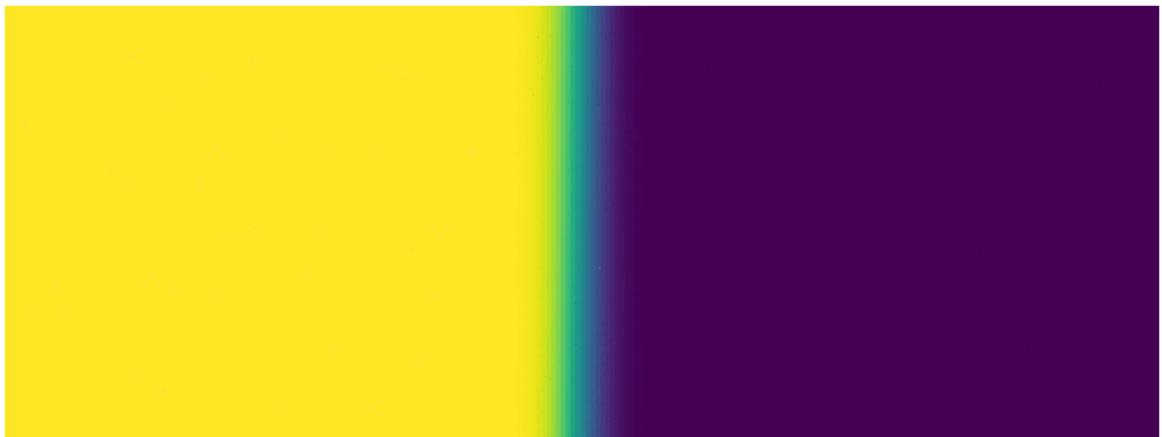

...and use computers a lot

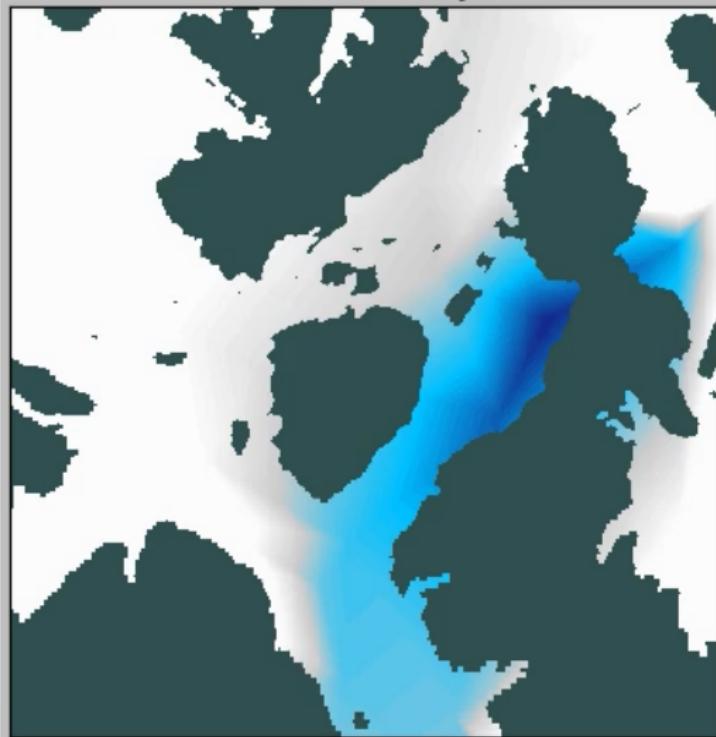

# How does the ocean work

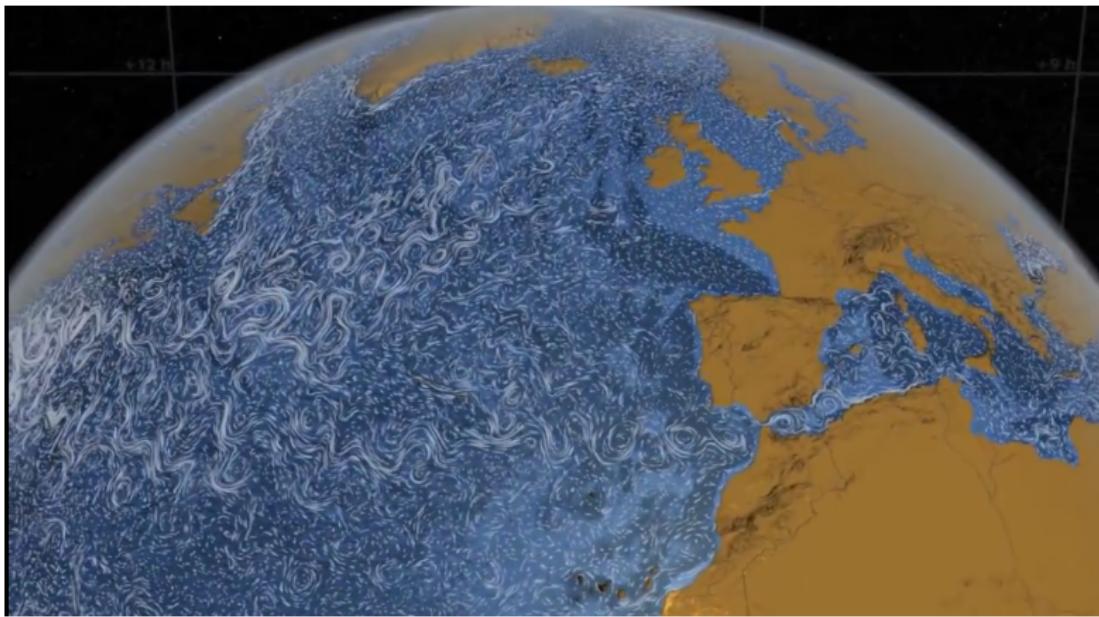

# How does the ocean work

Time = 0.0 days

How deep is the ocean?

- (a) 40 metres
- (b) 400 metres
- (c) 4 kilometres
- (d) 40 kilometres

How deep is the ocean?

- (a) 40 metres
- (b) 400 metres
- (c) 4 kilometres
- (d) 40 kilometres

What causes tides?

- (a) Wind
- (b) Moon and Sun's gravity
- (c) Density differences
- (d) Fish swimming around

What causes tides?

- (a) Wind
- (b) Moon and Sun's gravity
- (c) Density differences
- (d) Fish swimming around

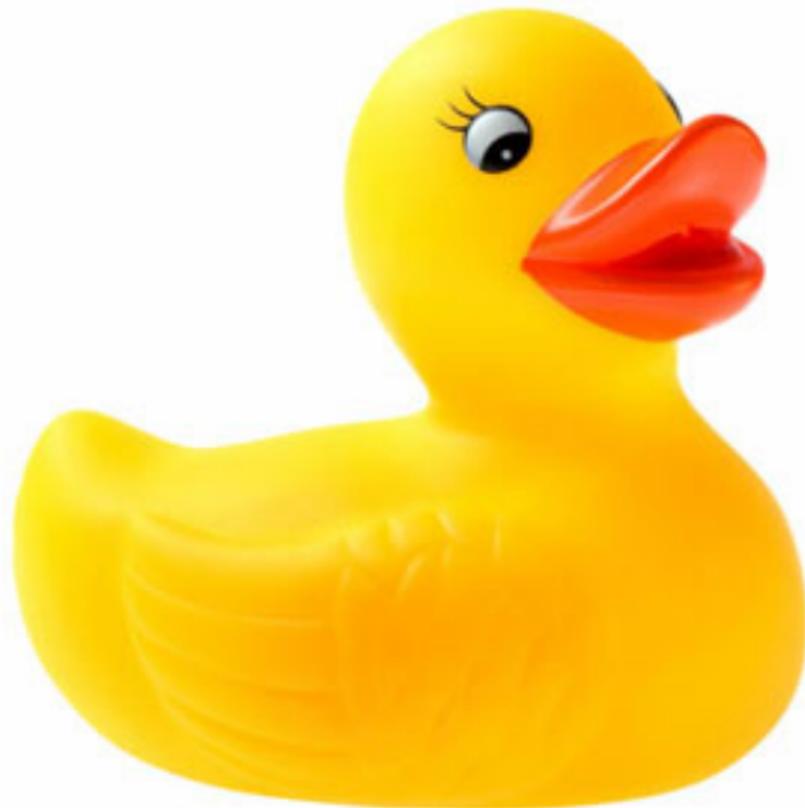

A tsunami is as fast as a?

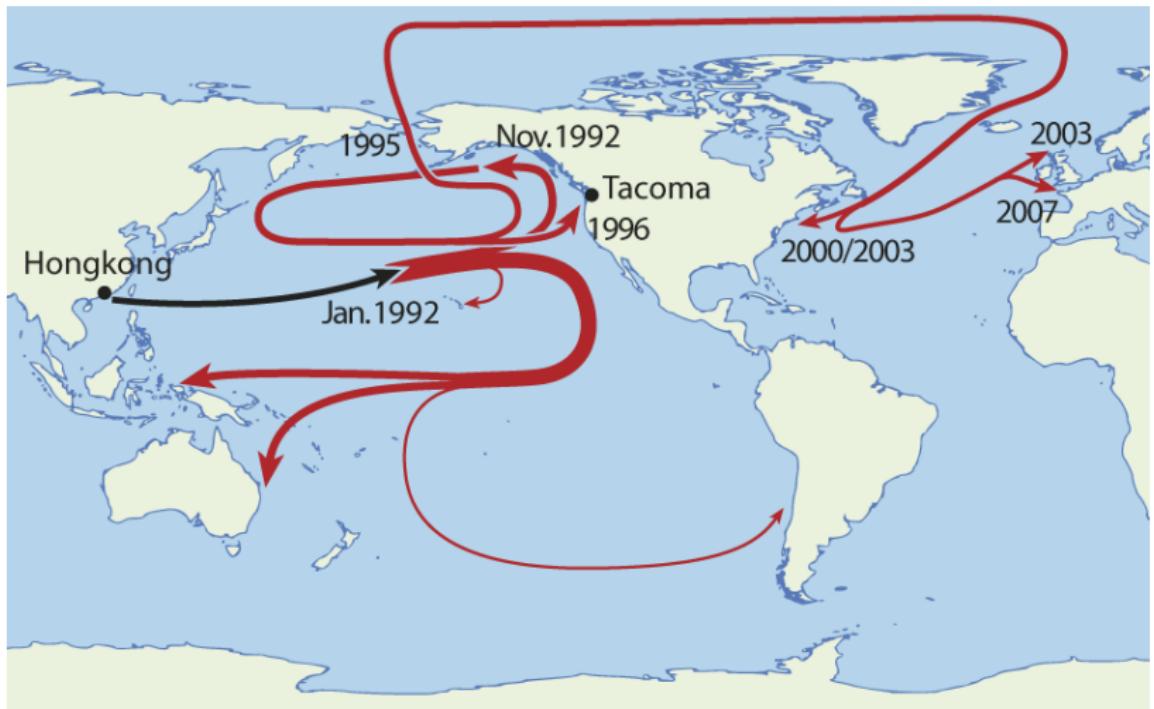

- (a) Car on the highway
- (b) Airplane
- (c) Bullet
- (d) Pikachu's thunderbolt

A tsunami is as fast as a?

- (a) Car on the highway
- (b) Airplane
- (c) Bullet
- (d) Pikachu's thunderbolt
